2010-2011 CITY CALENDAR OF IMPORTANT DATES

General comments

This calendar provides city clerks and other city officials with a handy reference to some of the more significant dates in their business year. Many items are framed in terms of the last day on which a certain duty must be performed. Calendar users must look ahead and anticipate necessary action since it may be advantageous to complete certain tasks well ahead of the mandated statutory deadlines.

Although primarily designed for statutory cities, many items on this city calendar also apply to home rule cities. Items that apply to statutory cities only are generally designated as such. Other items apply to all cities in most cases. Please contact the League if you have any questions about whether the deadlines in this calendar apply to your city.

For additional guidance, city officials involved in the budgeting/finance process are advised to consult the LMC publication, *Budget Guide for Cities* (215h.1, June 2010), for a more in-depth analysis of deadlines and guidelines pertaining to municipal finance. The memo is available in PDF format in the Library section of the [LMC web site](#), or by contacting the League Research Service at (651) 281-1200 or (800) 925-1122.

A summary of 2010 legislation affecting cities is available in the League's publication, *2010 Law Summaries*. The summary specifies effective dates of new legislation requiring action by cities. The publication is available in PDF format in the Legislative section of the [LMC web site](#), or by contacting the League Intergovernmental Relations Department at (651) 281-1200 or (800) 925-1122.

Election administration

City clerks should pay careful attention to the compilation of Minnesota election laws published by the Office of the Secretary of State. Each clerk should have a copy of this publication. If not, contact your county auditor or the Secretary of State's Office at (651) 215-1440. You can also access information and election calendars online at the [Secretary of State web site](#). However, clerks should also understand that the 2010 legislative session changed numerous election laws and deadline dates. The League attempted to include these changes in the 2010-2011 calendar. For city-related questions regarding these changes, or election laws in general, please contact the Secretary of State's Office, your county auditor, or the League Research Department.

City elections

Statutory city elections generally occur in November of even-numbered years on the same date as the state general election, according to Minn. Stat. [§ 205.07](#). That statute also authorizes statutory cities to choose, by ordinance, to hold their municipal general election on the first Tuesday after the first Monday in November in odd-numbered years. All home rule charter cities must hold their elections in November of odd or even years, but not both. The statute does not authorize annual elections, nor does it authorize elections in December or during other times of the year. Election dates in this calendar are for those statutory cities that have opted for even-year elections. Legislation further establishes a uniform date in August for all municipal primaries.

Calculating the dates for taking action

The following information describes the process the League uses to calculate the dates when cities must take action.

When the statutory reference is to a certain number of days before an election or other event, start counting from the day before the event. When determining the days after the event, start counting from the day after the event. In addition, Minn. Stat. [§ 331A.08](#) states that if the “last day” falls on a weekend or legal holiday, that day is usually omitted from computation. This means that if a deadline falls on a Sunday, that day is omitted and Monday is the deadline day.

To ensure that all statutory deadlines are met, the League takes a more conservative approach in guiding cities on deadlines. When a statute requires that action be taken “on or before” a certain date and the date falls on a Saturday, Sunday or legal holiday, the calendar uses the previous day (usually a Friday) as the due date.

Additionally, if a statute requires that cities take action “by” a certain date, the League has set the deadline as the day prior in order to ensure that the action is completed when the deadline day begins. Dates computed in this manner are noted with an asterisk (*).

Finally, when figuring weeks before an election, “one week before” is the same calendar day in the previous week. “One month before” is the same numerical calendar date in the preceding month. For more information, see Minn. Stat. [§§ 645.13-.15](#).

If you have any questions about deadlines, please consult the statutes listed on the right side of your calendar, or contact the League Research Service at (651) 281-1200 or (800) 925-1122. Additionally, if you find any errors or omissions in this publication, please notify the League Research Service. The calendar is not all-inclusive, and the possibility for error exists. Please use it only as a guide and do not rely on it exclusively.
