Goal: Understand FLSA and how it applies to your city

- Non-Exempt Refresher
- Proposed FLSA Regulations
- Exempt Refresher
- Penalties & Recommendations
Non-Exempt Refresher
Non-Exempt

Cities are required to pay *minimum wages* and *overtime* for those hours worked in excess of 40 hours per *work week* for non-exempt *employees*.

- **Employment relationship**
- **Minnesota’s minimum wage**
  - $9.86 per hour for large employers
  - $8.04 per hour for small employers
  - New 2020 wages coming soon
  - LMC guidance: city budget > $500,000 = large employer

*LMC Resource - FLSA: An Overview*
Non-Exempt

- **Overtime** = one-and-one-half times the employee’s *regular rate of pay* for all *hours worked* over 40 in the *workweek* or,
  - FLSA allows comp time in lieu of OT pay
- **Regular rate of pay** includes all compensation for employment, including base wages, longevity pay, on-call or standby pay, educational incentive pay, and most other forms of pay.
  - excludes tuition/expense reimbursement, and premium pay for overtime hours required by the FLSA itself or by union agreement.
  - Some cities may specify the regular rate of pay will include such items either by policy or union agreement.
Non-Exempt

• **Work week** = 7 days in a row and begin at any time of day.
  – Must **consistently** use the same seven-day period (for example, Sunday at 12:00 a.m. through Saturday at 11:59 p.m. of every week).
  – May also have different workweeks for different groups of employees.

*Document and Communicate*
Non-Exempt

Work Period and Overtime for Police and Fire Personnel

• A "work period" may be from 7 consecutive days to 28 consecutive days in length.

• For work periods of at least 7 but less than 28 days, overtime pay is required when the number of hours worked exceeds the number of hours that bears the same relationship to 212 (fire) or 171 (police) as the number of days in the work period bears to 28.

  – For example, fire protection personnel are due overtime under such a plan after 106 hours worked during a 14-day work period, while law enforcement personnel must receive overtime after 86 hours worked during a 14-day work period.
**Non-Exempt**

Calculating OT pay for employees with multiple jobs

**Option 1**
- With advance agreement of the employee, pay 1.5x the regular rate of pay for the actual work performed during overtime hours

**Option 2**
- Pay 1.5x weighted average

*Best practices recommend that these agreements be in writing.*

Non-Exempt

  – Not open more than seven months of the year or average receipts for any six months of the preceding year must not be more than 1/3 of its average receipts for the other six month (33-1/3 test)
Non-Exempt

Navigating Laws and Collective Bargaining

- The federal FLSA is the minimum standard
- Collective bargaining and state/local laws can exceed
- Minnesota FLSA requires all employers, regardless of gross annual revenue, to pay overtime for all hours worked in excess of 48 hours in a seven-day period.

Recommendations

Why accurate job descriptions matter

Accurate Job Descriptions
Job descriptions that accurately reflect the expected, day-to-day responsibilities, scope of position and educational requirements are a critical component of understanding how to classify jobs correctly.

Accurate Job Titles
Job titles that accurately reflect the position and not infer educational or professional expertise required to perform the job.

Example: “Maintenance Team Member” not a “Maintenance Engineer”
Recommendations

Review time off policies and practices

- Communicate pay status and job classification changes and expectations that require employee’s to record their time and attendance (or not).
- Train your employees to avoid contacting nonexempt employees while “off the clock” or implement a policy to track and compensate employees for these hours to be compliant with FLSA overtime requirements.
- Adopt a FLSA complaint overtime policy utilizing the Model Overtime Policy available on LMC website.
- Document and record these changes.
Key Takeaways

• Proposed minimum salary for exempt = $679/week
• Cities can make all employees non-exempt and control overtime expenses
• Ensure accurate overtime pay rate for non-exempt employees working multiple jobs
• Review overtime policies for FLSA compliance
